Re: AT&T Broadband vs. ALLTEL Kentucky and Kentucky ALLTEL
Docket No. 2003-00023

Dear Mr. Dorman:

During the hearing in the above matter, ALLTEL was asked to respond subsequent to the hearing, to certain requests that were made during the hearing. The following are those requests and ALLTEL's responses:

- 1) Is Section 2.2 of the Interconnection Agreement between ALLTEL Kentucky (Shepherdsville) and AT&T Broadband also included in any Agreement regarding Kentucky ALLTEL (Lexington) and AT&T Broadband?:

ALLTEL's Response: Kentucky ALLTEL and AT&T Broadband do not have a written agreement. This was an issue between those parties in this proceeding but it was settled by the parties agreeing to negotiate an agreement. In spite of Kentucky ALLTEL's frequent inquiries subsequent to the settlement including several recent inquiries, Kentucky ALLTEL is still waiting on AT&T Broadband to provide it any suggested changes to the initial draft agreement. In the response to the most recent Kentucky ALLTEL inquiry, it was advised that the person responsible for this negotiation at AT&T Broadband is not available and would not be available until early next year.

- 2) How have Georgia and Florida Commissions determined the dual billing issue?

ALLTEL Response: ALLTEL is not aware of this issue being raised in either of those states.

- 3) Provide examples of situations in any ALLTEL ILEC territory where another carrier has located a switch in ALLTEL ILEC territory that could be used to provide an indirect interconnection for a CLEC in accordance with Section 2.2 of the Interconnection Agreement.

ALLTEL Response: The closest example is Kentucky ALLTEL territory in Lexington where two or more CLECs have switches located in Lexington that could tandem traffic from a third CLEC to Kentucky ALLTEL, thereby providing an indirect interconnection between Kentucky ALLTEL and the third CLEC.

Please advise if you have any further questions.

Sincerely yours,

James H. Newberry, Jr.
